

## **The Source of Supply of Production is the Mining Sector**

### **The Most Comprehensive Exhibition " Mining Türkiye 2022 " Is Waiting for You**

With the rapid increase in the world's population, the need for raw materials is also increasing significantly. The source of raw materials needed by all sectors is largely provided by the mining sector alone. Mining Türkiye, the most comprehensive fair of this important industry, is preparing to open its doors for the 10th time on December 15, 2022.

More than 400 domestic and foreign companies serving in all areas of the mining industry will participate in the fair. The fair, which attracted 11,488 visitors in 2021, was met with great interest by the mining industry. It is expected that more than 15 thousand industry professionals will visit the fair, where visitor registrations have already been received from 56 countries. The fair is preparing to bring exhibitors and visitors together in an area of 30,000 square meters in 7 halls at the Tüyap Fair Convention and Congress Center in Istanbul.

### **The most comprehensive exhibition of the mining sector in Eurasia**

Mining Türkiye Fair, the most comprehensive fair of the sector held in Eurasia, is preparing to bring together visitors and exhibitors with its wide range of products and services.

The visitors of the fair, where products and services will be exhibited under the main headings of selection, definition and determination of the mine site, preparation of the environment and working areas of the mine area, ore extraction, ore preparation and enrichment, from drilling machines and equipment to cutting-loading-transporting machinery and equipment, from geological survey equipment, drilling machinery and equipment, grinding-crushing-screening-sorting machinery and equipment, to chemical enrichment materials and equipment, from occupational health and safety equipment, generators, electric motors, to transformers, will offer the opportunity to examine all kinds of products under one roof.
